

# Vendhan Infotech

---

*"We built your websites  
before you hired us."*

Six working prototypes, fully built. A screen recording ready to share. Like what you see? We host them live instantly.

The logo consists of a large dark blue circle containing a smaller orange circle. Inside the orange circle, the letters 'VI' are written in a dark blue, serif font.

# What We Already Built — For You.

Before a contract. Before a meeting. Before you said yes.

## Dusk & Dawn

Split screen • animated sun/moon SVG

- Working prototype
- Mobile responsive
- Full navigation

## The Storyteller

Cinematic parallax • day/night hero toggle

- Working prototype
- Mobile responsive
- Full navigation

## The Pragmatist

Mobile-first • dark mode • SPA navigation

- Working prototype
- Mobile responsive
- Full navigation

+ 3 more designs built • Watch the screen recording first • Like what you see? Say the word — we host all 6 live within hours for your team to try

# Watch the recording. Like it? We host all 6 live — within hours.

No commitment required. No sales call needed first. Just watch, then decide.

01

## Watch the screen recording first

We've recorded a complete walkthrough of all six prototypes — every section, every interaction, every design direction. Watch it in under three minutes. No meeting. No pressure.

02

## Like it? We host all 6 live — same day, no charge

Like the recording? Say the word. We'll have all six prototypes on a live URL within hours — open on your phone, tablet, or laptop. Share with your team, your designer, whoever needs to weigh in.

03

## Your feedback shapes the final build

Mix elements across prototypes. Tell us what resonates. We incorporate your feedback before a contract is even signed. When you're ready, we start within days.

*Most agencies send PDFs. We send a recording. Then we host the real thing.*

# Our Philosophy

We recommend what's right for your business — not what bills the most hours.

## 01

### Show, don't tell

Six working prototypes before the contract. That's the standard of investment we bring to every engagement.

## 02

### Simpler is smarter

A single-venue cafe doesn't need WordPress + WooCommerce + Stripe. We recommend what's actually right — and we say so.

## 03

### Long-term partner

Content updates, seasonal menus, new pages — we handle it all. You message us, changes done in 24-48hrs.

# Platform Recommendation

We've noted your preference for WordPress. Here's our honest assessment — and we'll build on whichever you choose.

Platform	Est. Hosting Cost	Our View
<div>Static HTML</div> <div>✓ Recommended</div>	\$0-5/mo hosting + domain ~\$12-15/yr	Best performance, least maintenance, zero CMS overhead. Perfectly scalable with integrations. Our Phase 1 recommendation.
WordPress	\$5-50/mo + plugins + domain ~\$12-15/yr	Powerful and flexible — ideal if you want to self-manage content. Adds plugin maintenance and security updates. Fully available if you prefer it.
Squarespace / Wix	\$16+/mo forever + domain included	Easiest for self-editing, but cannot match the design quality or customisation of your custom prototypes.

Hosting cost depends on your chosen tech stack and expected traffic. We recommend the best fit for scalability and future integrations — not the cheapest option.

# Reservations & Food Ordering

Honest options — no build cost required where it isn't needed.

## RESERVATIONS

### ResOS

Free

Our pick • [resOS.com](https://resOS.com)

### TheFork

Free

Strong UK/EU • [thefork.co.uk](https://thefork.co.uk)

### OpenTable

\$39+/mo

Best discovery • [opentable.com](https://opentable.com)

### Custom Form

Included

Phase 1 start • on-brand

## FOOD ORDERING

### Uber Eats / Deliveroo

✓ Recommended

Zero build cost. Industry standard. We add branded order buttons to your site.

[ubereats.com](https://ubereats.com) • [deliveroo.co.uk](https://deliveroo.co.uk)

### Simple Order Form

+\$150

Contact form with item selection. Order emailed to you. Manual payment offline.

*Best for: getting started immediately*

### Full eCommerce Build

+\$700

WooCommerce + Stripe. Product dashboard. Online payment. Note: Stripe transaction fees apply.

*Best for: when you're ready to scale*

# Three Ordering Options — Fully Feasible, Honestly Assessed.

All three can be built. Here's what each actually involves.

## Option 1

### Simple Form

**+\$150**

~4-6 hrs · 1-2 weeks

Contact form with item selection. Order emailed to business. Manual payment offline. No automated time slots.

Complexity: Low

## Option 2

### Cart & Backend

**+\$400**

~12-15 hrs · 2-3 weeks

Cart-style ordering UI. Basic admin dashboard to view orders. Manual payment. Order confirmation email sent automatically.

Complexity: Medium

## Option 3

### Full eCommerce

**+\$700**

~20-25 hrs · 3-4 weeks

WooCommerce or equivalent. Online payment via Stripe. Product management dashboard. Full order tracking. Note: Stripe fees apply.

Complexity: High

**Our honest recommendation: Start with delivery platform buttons (Uber Eats / Deliveroo) — zero build cost, instant customer reach. Revisit direct ordering once volumes are validated.**

# Pricing

Four ways to start. All tailorable. No commitment until you're ready.

No upfront payment

Pay only on delivery

Walk out any time

No lock-in contracts

## A

**HTML  
Deliverable**

**\$400**

1-2 wks

Production-quality HTML. Clean, documented code. Hand to any developer or platform.

## B

**Live  
Website**

**\$800**

2-3 wks

Full site live on best-fit hosting. All pages, mobile responsive, domain setup included.

## C

**+ Bookings  
& Contact**

**\$1,100**

3-4 wks

Phase 1 + booking widget, contact forms, Google Maps, professional email routing.

## D

**Full  
3-Phase Build**

**\$1,250**

4-5 wks

Complete. Delivery platform buttons, ordering setup, all integrations included.

Add-ons: Custom ordering +\$150-700 · Copywriting +\$150 · Imagery +\$100 · Monthly support retainer \$50-100/mo · Hosting costs billed at cost — no markup

# Content & Assets — What We Need From You

Here's exactly what we need, and what we'll handle.

Asset	Status / Notes	Our Approach
<b>Logo</b>	Already exists. Hands graphic included.	Supplied by client — integrated by us.
<b>Copywriting</b>	Client may provide; we can support.	We write/refine for +\$150. We also advise tone and structure.
<b>Imagery</b>	Stock, AI-generated, or pro photos.	Unsplash placeholders included. AI curation / stock selection +\$100.
<b>Menu Content</b>	Provided by client.	We style and format to match the design.
<b>Domain Name</b>	Purchased by client (~\$12–15/yr)	We handle full DNS setup at no extra charge.

# Why choose us?

Vendhan Infotech

## ● First client on Upwork

Your full, undivided attention. No competing priorities. Just one team, fully invested in your success.

## ● Already invested in your project

Six prototypes built and ready before you hired us. A recording made. That's the level of commitment we bring.

## ● Straight advice, always

We'll tell you when simpler is better. Your trust matters more than the invoice total.

## ● We stay involved

Retainer, updates, new phases — we're your web team, not just a vendor.

# Next Steps

1

## Watch the screen recording

We'll send the link. See every prototype, every section, every interaction — in minutes.

2

## Like it? We host them live — same day

Say the word and all 6 are live for your team to open, explore and share on any device.

3

## We start within days

Scope agreed → we build → you review → you pay on delivery.

We're excited to earn our first 5-star review — and yours.
